Lived and worked in Dubai, UAE (2021-2022) as an independent entrepreneur. Available remote, full-time or part-time. Open to relocation: UAE, Qatar, Saudi Arabia, Germany, Netherlands, Canada, USA.

PROFILE

I judge whether AI output is correct, not just fluent. I work with large language models every day: I write and refine prompts, define roles and rules for AI agents, and review what they produce against a written spec. I also write Python and TypeScript, so I can rate and annotate code, not only text. Anthropic-certified in AI Fluency and Claude Code. I work independently in a timezone that overlaps fully with Europe and partly with the US East Coast.

RELEVANT EXPERIENCE

Independent AI Practitioner: evaluation, prompting and agent design 2023 - present

- **Rating against guidelines.** Run a review step where a separate AI reviewer checks finished work against a written specification and returns a confirmed or refuted verdict, the same discipline as rating model responses against a rater guide.
- **Prompt and instruction writing.** Write role definitions, rules and multi-step instructions for eight AI agent roles, with tool limits that keep reviewers read-only.
- **Code review of AI-written software.** Ran an AI security-review pass on each AI-generated pull request for a trading system, decided merge-after-fixes, and had fixes applied and re-tested before merging. The system has 913 passing tests.
- **Fact-checking AI-assisted content.** Checked documentary scripts claim by claim before voicing. One check caught an unsourced dollar figure and a finding credited to a news outlet that could not be verified; both were corrected before voicing.
- **Knowing where to trust the model.** Designed systems where fixed rules reject unsafe cases before any model call, and the model never has the final say on money.
- **Labelled data.** Keep labelled JSONL and snapshot datasets, including logs of rejected signals, so filtering decisions can be checked statistically later.

Head of Marketing, PerfectRide Jan 2025 - present
Hybrid, Canada and Nigeria (perfectride.io, vehicle business investment platform)

- Lead marketing for the platform, including a 47-second vertical promo video with an AI host for the STAKE product.

Sales and Marketing Manager, Cladex Feb 2026 - present
Part-time

Marketing Manager, NiMEDix Ecosystems Technologies Ltd Jan 2018 - present
Abuja, Nigeria (hybrid). Written English is my daily working language in both roles.

EDUCATION

Ordinary National Diploma (OND), Mass Communication, Federal Polytechnic Bida, Nigeria

CERTIFICATIONS

AI Fluency: Framework and Foundations, Anthropic (July 2026), delivered with University College Cork and Ireland's Higher Education Authority
Claude Code 101, Anthropic (July 2026)

TECHNICAL PROJECTS

QUANTSAMA, multi-agent crypto trading research terminal (Python, React). **WhatsApp AI Sales Agent** (TypeScript, Claude API, 35 tests). **Automated daily YouTube Shorts** pipeline with an AI review pass. **NaijaNexus** marketplace with Claude Vision listings.

REMOTE WORK SETUP

Language: English, full professional proficiency, written and spoken. Comfortable with long, detailed guideline documents.
Local knowledge: Current, first-hand knowledge of Nigerian and West African web, news, social media, commerce, culture and slang.
Equipment: macOS workstation, Android phone, fibre broadband with mobile-data backup, power backup.
Availability: Flexible daily hours. UTC+1.

SKILLS

AI: LLM output rating, preference judgement (RLHF-style), guideline-based annotation, prompt engineering, hallucination analysis, tool use, multi-agent systems, AI safety basics
Code: Python, TypeScript, JavaScript, SQL, Bash; pytest and Node test runner; Git and GitHub pull-request review
Data: JSONL, CSV, SQL, dataset QA, backtesting, walk-forward validation, Brier-score calibration
Domains: finance and crypto, trading, digital marketing, video production
